

COMMUNITY MEMBERSHIP

Stay connected to the people, ideas and opportunities shaping the future of energy innovation.

The Community tier is for organisations that want to **engage with the network, stay informed and participate in the wider innovation conversation**, without needing the fuller commercial and strategic benefits of the upper tiers.

WHO IS IT FOR?

The Community tier is best suited to organisations that want to stay connected and contribute to the innovation ecosystem.

- 
Universities & research centres
 Academic and research institutions contributing knowledge, capability and innovation insight.
- 
Public sector organisations / trade bodies
 Government agencies and industry bodies supporting innovation and sector development
- 
Independent experts
 Specialists and advisors sharing expertise and perspectives to inform innovation outcomes.
- 
Investors / funders
 Investors and funders interested in emerging technologies and innovation opportunities.

JOIN TO:

-  Stay informed and visible
-  Build relationships across the ecosystem
-  Engage with innovation activity
-  Participate in events and discussions
-  Remain close to future opportunities

WHY IT MATTERS

Community members want to stay close to innovation activity and future opportunities. They are looking for:

-  Staying informed on innovation activity, industry trends and emerging opportunities
-  Increased visibility and engagement
-  Maintaining awareness of evolving industry priorities and needs
-  Connections across the innovation ecosystem
-  Remaining close to future opportunities

HOW THE INNOVATION ALLIANCE HELPS

The Innovation Alliance brings the community together to share knowledge, spark ideas and stay connected to the people, conversations and innovations that are shaping the future of energy.
